

Double-Hung Window

The double-hung window allows for ease of cleaning with tilt-in sashes and is the classic choice for New England.

Slider Window

The Slider window functions horizontally and eliminates unwanted cross members so you can enjoy the view! Great for patio enclosures and is available in 2-lite or 3-lite styles.

Picture Window & Casement Windows

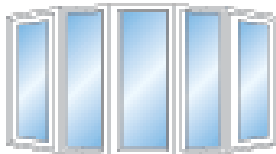

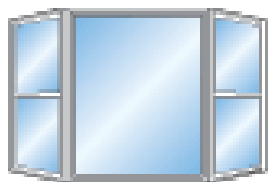

Stationary picture windows allow maximum light and visage while alone or used in combination with virtually any other window style.

Casement windows offer a functional and contemporary hinged window for easy air flow and operation.

Hopper Window

The Hopper window is a great choice for basements or other areas needing ventilation along with insulated glass. Opens inside.

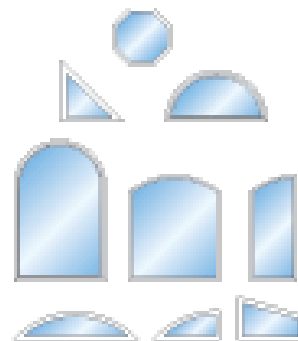

Bay & Bow Windows

Bay & Bow Windows will improve your interior space and add abundant natural light. They can be made using double-hungs, casements, or picture windows.

Awning Window

Awning windows are great for allowing ventilation in tight spaces and can be combined with other window styles like the PW above.

Architectural Shapes

Many other shapes available in stationary windows.
